WORK HISTORY

SENIOR FRONT END DEVELOPER

NEXTWO | AMMAN, JORDAN, JORDAN   JAN 2023 - CURRENT

As a Senior Front-End Engineer, lead development on FASAH, a large-scale, government-focused logistics platform for Airport and Port Community Services under the Saudi Ports Authority, delivering user-focused solutions for high-impact projects.

- Architected and developed high-performance front-end applications using modern frameworks like Vue.js and Angular.
- Participated in code reviews, providing feedback to uphold coding standards and best practices.
- Led front-end discussions during sprint planning, offering technical guidance to ensure timely feature delivery.
- Spearheaded the migration of legacy systems to modern frameworks, improving scalability and maintainability.
- Developed reusable front-end components to streamline development and increase efficiency.
- Mentored junior developers, fostering a collaborative environment and enhancing overall team productivity.

SENIOR FRONT END DEVELOPER

SIGNALS CONTROL | AMMAN, JORDAN, JORDAN   AUG 2019 - FEB 2022

Spearheaded the development of innovative solutions for Saudi government initiatives, including a visitor management system for enhanced security, a ticketing management platform to streamline customer support, and the TRAX system for airport trolley tracking using RFID technology.

- Resolved complex front-end issues while staying updated on the latest development trends
- Contributed to UI enhancements, improving user experience and interface functionality
